ABOUT ME

A results-driven **Python Programmer** with 5 years of experience specializing in developing scalable web services and optimizing data processing pipelines. Proficient in **Django** and **Flask**, and experienced with cloud environments (AWS). Proven track record of improving system efficiency and reducing latency.

EDUCATION AND TRAINING

2018 – 2020

M.S. in Computer Science State University of Technology

2015 – 2018

B.S. in Software Engineering City College of Engineering

SKILLS

Programming

Python (Advanced), SQL, JavaScript (Basic)

Frameworks/Libraries

Django, Django REST Framework, Flask, SQLAlchemy, Pandas, NumPy

Databases

PostgreSQL, MySQL, Redis

Cloud/DevOps

AWS (EC2, S3, Lambda), Docker, Git, CI/CD (Jenkins)

Methodologies

Agile, Scrum

WORK EXPERIENCE

DataFlow Analytics

Junior Python Developer

17/01/2020 – 04/01/2022

- Developed automated data ingestion and cleaning scripts using **Pytho n** (Pandas, SQL), decreasing manual preparation time by **40%**.
- Built and maintained a Flask-based internal dashboard for real-time data monitoring.
- Collaborated with the Data Science team to integrate new analytical models into the production environment.

Innovatech Solutions

Senior Backend Developer

27/03/2022 – Current

- Led development of a high-traffic e-commerce backend using **Python/ Django REST Framework**, handling over 1 million daily requests.
- Designed and implemented a microservices architecture, improving system scalability and reducing API response time by **25%**.
- Managed deployment and maintenance using **Docker** and AWS Lambda for serverless components.
- Mentored two junior developers on Python best practices and code reviews.
